💼 Experience

Java Developer
Integrative Project Zintra

March 2022 - June 2022

Development of an Ecommerce whose products are concrete pieces as bases for candles and plants, using frontend, backend and object-oriented programming.

Geophysical Engineer
Geoexplora S.A. de C.V.

March 2021 - April 2022

I developed maintenance programs in Bash for computers with the GNU/Linux operating system.

🎓 Education

Geophysical Engineering
August 2014 - May 2019

Universidad Nacional Autónoma de México, Mexico City, Mexico.

‹› Projects

PAPIIT IT102019
Python

Development of a computational prototype for the inversion of electrical data using multisource.

❤ Contributions

Python Programming Manual

I developed a manual on how to program in Python focused on geophysical data and its processing. I used LaTeX for writing and shared some of the code in a GitHub repository.
