EXPERIENCE

Java Developer - Integrative Project Zintra
March 2022 - June 2022

Development of an Ecommerce whose products are concrete pieces as bases for candles and plants, using frontend, backend and object-oriented programming.

Geophysical Engineer - Geoexplora S.A. de C.V.
March 2021 - April 2022

I developed maintenance programs in Bash for computers with the GNU/Linux operating system.

PROJECTS

PAPIIT IT102019
July 2019 - January 2020

Development of a computational prototype for the inversion of electrical data using multisource.

EDUCATION

Geophysical Engineering

August 2014 - May 2019, Universidad Nacional Autónoma de México, Mexico City, Mexico.

VOLUNTEERING

Python Programming Manual

Septiembre 2018 - Marzo 2019
I developed a manual on how to program in Python focused on geophysical data and its processing. I used LaTeX for writing and shared some of the code in a GitHub repository.
